SIMPLIFY SCHEDULING AND REDUCE LABOR COSTS

Labor is the number one asset in any hospital or healthcare system, but at up to 60% of the total operating budget, it also represents the number one expense. Effective management of labor, to insure the right skills with the optimal staffing number, is the single most important task for a healthcare organization to control costs. In addition, as a fast-paced, 24/7 operation with unpredictable patient volumes, managing staff schedules is critical to delivering the best care possible to your patients.

The Scheduling Solution Configured for YOU

The Schedule360 Employee Scheduling and Labor Management applications are designed to streamline and automate the process of clinical staff scheduling. Schedule360 can help you control labor costs, minimize compliance risks, improve staff productivity and deliver the highest quality of patient care. As a secure cloud-hosted solution, Schedule360 supports real-time functions of productivity measurement, employee shift scheduling, census-based cost controls, float pools and more.

Schedule360 is highly configurable and can be configured to fit your healthcare organization’s unique needs. It can even be configured with different setups for each department or group within your organization.

Affordable Pricing

Schedule360 is available at an affordable monthly subscription and includes setup, 24/7 support and online training. It is scalable to virtually any size organization.

Schedule360 Delivers Time And Cost Savings

» Advanced, Clinically-Focused Scheduling Automation
   Supports the assignment of the proper staff to patients and balanced workload distribution

» Optimized Staff Scheduling
   Ensures you have the proper staff coverage for every shift in a fast-paced clinical environment

» Employee Self-Scheduling
   Allows employees to search and accept shifts within their qualifications online via a computer or mobile device

» Proactive Scheduling
   Integrated real-time reports allow one click management of employee compliance to work targets and enable rapid schedule management

» Last Minute Schedule Management
   Enables last minute critical needs to be dispatched to all qualified employees to ensure optimal coverage for any situation

» Integrated Productivity Tools
   Advanced productivity tools include daily, weekly and monthly reports with HDPP, staff ratios, census based targets, and cluster comparisons.

» Real-Time Communication
   Instantly communicate essential information to your employees’ e-mail, message boards and mobile devices

» Integrated Survey Tool
   Allows the creation and dispatch of any Staff Survey for your facility or organization. Employees receive a Survey link to their message boards and complete online. Results are captured immediately for Management viewing.

» Labor Tracking Analytics
   Monitor schedules and labor costs in real time to ensure optimal labor coverage for every shift.

» Payroll Compilation Reports
   Schedule360 can be configured to record all the complex variables associated with your employee payroll so you can easily compile a concise report for your payroll system or service. It handles even the most complex variables in a hospital environment.

About Schedule360

Since 2000, Schedule 360 has been exclusively dedicated to developing web-based employee scheduling applications that simplify scheduling and labor management. Our mission has always been to deliver the most robust, easy-to-use, flexible and affordable employee scheduling applications using the latest Web and mobile technologies. We have developed our Schedule360 Employee Scheduling and Labor Management Applications with unmatched configurability and scalability so they can fit the way YOU work without compromise.
